

TECHNICAL SPECIFICATIONS

The standard Conviviale version leaves the pavement clear with the minimum footprint ensuring that pedestrians can easily circulate.

The standard version is available in length 3000mm and equipped with a timetable case 750 x 750mm (6 A4). The shelter can be extended using 1000mm modules to achieve the required length adapted to the number of passengers.

The shelter also exists in a mini version 1000mm for less frequented locations.

Configuration combinations:

- Advertising space – A double-sided light box or poster case (display size H1710 x 1160mm or H1750 x 1200mm)
- One or two side cladding panels

Options: Bench, perch seat, signage flag, LED lighting kit powered by a photovoltaic panel or a mains power source, wind and snow guards.

Length of one unit: 3000 mm
Total depth: 1500 mm
100 x 60 mm steel verticals
Roof structure in 40 x 40 mm steel tubes
5 mm sheet steel roof supports
Roof glazing in smoked UV inhibited 6 mm PMMA

Cladding attachments: pinch-grip system made from Zamak alloy with brushed finish
Zinc primed and finished in our standard RAL colours.

Installation: Concreted directly into the ground.
