# *Installation*

**Fixed in concrete**

**with backrest**

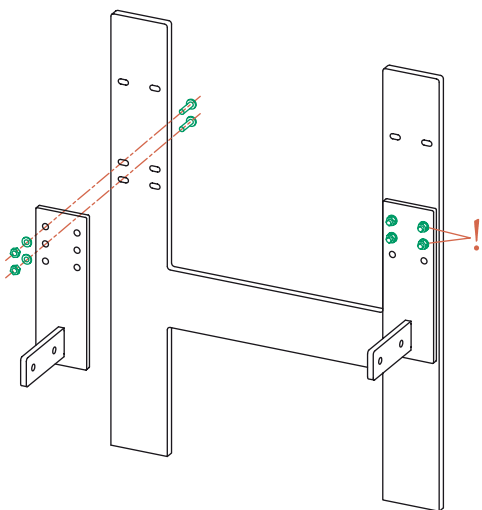

**without backrest**

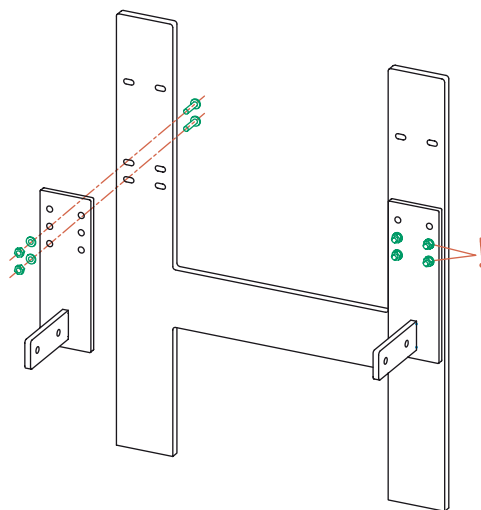

## Seat height adjustment

With the Emmerich steel bench you can adjust the seat height as needed.

The height change can be made with little effort. While the 470mm height suits most users, the 500mm height may be better for elderly users. The instructions below will show you how to easily make the height adjustment when needed.

Seat height 470mm

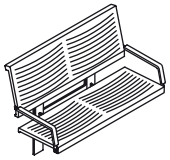

Seat height 500mm

**Bench type**

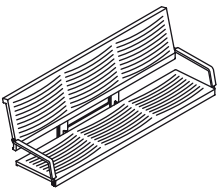

**Length/Depth/Height in mm**

**Weight in kg**

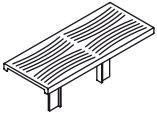

1200 / 604 / 990  
Seat height - 470 or 500
