

# 054 Earth bounding plug

Continental version

U.K. version

- Connects grounding cords to ground.
- 1 Meg Resistor, 3 x 10 mm male studs, allowing multiple cords connections per plug
- Available in Continental or U.K. version.

## PRODUCT SPECIFICATIONS

Designation	ESD protective products
Type	Accessories
Description	054SEB0100 – Continental version 054SEB0200 – U.K. version
Colours	Yellow
Recommended use	To connect grounding cords to ground
Construction	Normal earth contact is linked via individual 1 M $\Omega$ resistors rated 1 Watt to each connector on the front of the plug
Material	Plastic and three 10 mm metal studs for multiple cord connections
Standard sizes	63 x 49 x 49 mm
Weight	0,08 Kg
Mass	36 gr
Resistivity	Connector to earth pin resistance: 0.95-1.05 M $\Omega$ Connector to connector resistance: approx 2 M $\Omega$
Special remarks	1 Meg Resistor
