Steel Round Tube

Galvanised-

Zinc
phosphate
coating

Powder Coated

- 2-seat and 3-seat designs available
- 2 installation options - bolt-down or sub-surface mount
- Can be free-standing or bolted down
- Matching litter bin available
- Optional skater protection
- + Large RAL colour selection
- + Modern design for public spaces
- + Ergonomic shape to meet body shape
- + Increase seat comfort
- + Highly durable - long-lasting quality
- + Rain runoff allows for fast seat drying

Special design - oval feet to suit specific requirement.

Custom design -
270 degree
circular
installation
Outer diameter -
3000mm

- Thanks to special manufacturing methods the benches can be produced in custom diameters in almost any size
- Full circle design to surround objects
- Designed at 45° angle
- Outer diameter 2800mm
- Made from 8 separate parts in total

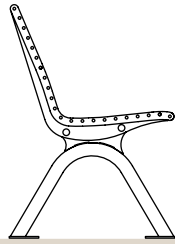

- Note on tables - the Bonn steel benches use a round tube for the design. Tables with round tubes do not provide a stable base for cups, glasses etc. when being used by the public. For tables it is recommended to use options with square tubes instead

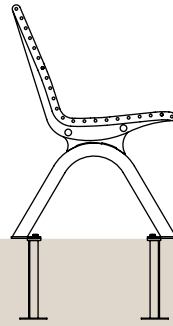

Installation types

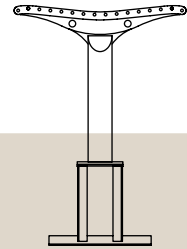

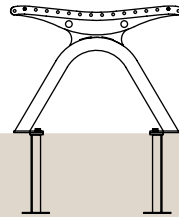

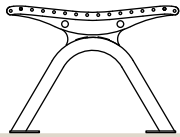

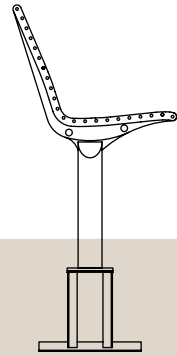

Free-standing

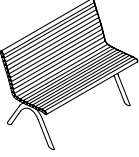

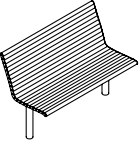

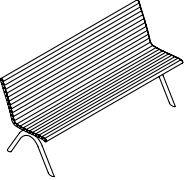

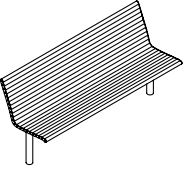

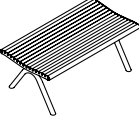

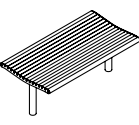

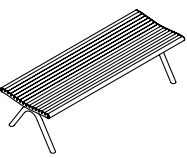

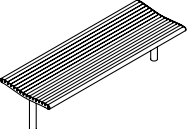

**Surface-mount
bolt-down**

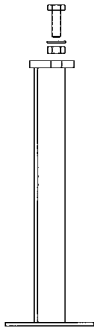

Sub-surface

	Length/ Width/ Height in mm	Weight in kg	Design
	1200 / 609 / 868 Seat Height: 450	45	Standard design 2 seat spaces Bolt-down
	1200 / 609 / 868 Seat height: 450	46	Standard design 2 seat spaces Sub-surface
	1800 / 609 / 868 Seat height: 450	59	Standard design 3 seat spaces Bolt-down
	1800 / 609 / 868 Seat height: 450	60	Standard design 3 seat spaces Sub-surface
	1200 / 639 / 471 Seat height: 450	36	Without back 2 seat spaces Bolt-down
	1200 / 639 / 471 Seat height: 450	37	Without back 2 seat spaces Sub-surface
	1800 / 639 / 471 Seat height: 450	46	Without back 3 seat spaces Bolt-down
	1800 / 639 / 471 Seat height: 450	47	Without back 3 seat spaces Sub-surface
