FLEXBRITE™ FLEXIBLE DELINEATOR

Built to Take a Hit, Designed to Spring Back.

pittman®

OVERVIEW

The Flexbrite™ Flexible Delineator is a tough and reliable safety solution designed to handle the rough and tumble of busy environments. Made from top-quality plastic, these delineators are built to last and can take multiple hits from vehicles without breaking or getting damaged.

They're flexible enough to bend on impact, helping to prevent damage to both the delineator and the vehicle. Whether you're looking to guide traffic, highlight curbs, or add an extra layer of safety in busy areas, Flexbrite™ delineators offer a dependable, long-lasting solution.

They're ideal for both indoor and outdoor use, especially in tough environments like factories and warehouses where durability and safety are top priorities.

PRODUCT FEATURES

- Extreme durability - 100% pure polyurethane
- High visibility - equipped with two reflective arrow stickers to guide traffic
- Fully flexible - springs back into place after impact
- Fast installation - bolts down directly into the ground
- Guaranteed quality - 2-year manufacturers warrant and CE certified

TECHNICAL DATA

Applications	Off-highway installation - suitable for car parks, warehouses, schools, business premises, multi-storeys

HEAVY-DUTY FIXINGS
Ensures the bollard is safely fixed to the road.

INSTRUCTIONS FOR USE

- 1. Choose the Installation Surface:** The bollard can be securely bolted into concrete or tarmac using the provided fixings.
- 2. Mark the Holes:** Place the bollard firmly on the ground in the desired position. Use the bollard as a guide to mark the locations for the fixing holes.
- 3. Drill the Holes:** Move the bollard aside and drill holes where you marked.
- 4. Install the Bollard:** Line up the bollard with the drilled holes. Then, bolt it securely into place.
- 5. Ready for Use:** Once installed, the bollard is ready to use immediately.
