PLASTIC CHAIN - 50 METRE ROLL

RED & WHITE

Versatile & Lightweight for Quick, Customizable Barriers

pittman[®]

OVERVIEW

The Plastic Chain Roll is a lightweight and versatile solution for creating temporary barriers in various settings. Easily cut to the desired length, this chain can be quickly deployed to meet your specific needs.

Perfect for use with the MegaMax (SKU 755691) or MultiMax (SKU 755690) Barriers. The Plastic Chain Roll is ideal for indoor applications but can also be used outdoors for up to 6 months.

Whether for road signaling, security purposes, or event management, this chain offers a flexible and efficient way to create boundaries and control access.

PRODUCT FEATURES

- Durable design - strong polyethylene ensures durability and reliability
- Lightweight materials - allows for quick setup, suitable for temporary use
- Versatile - perfect for road signaling, security, events and more
- Customisable - easily cut on-site to fit your exact needs
- 5mm link gauge - provides a strong, durable chain link
