SEVILLE WOODEN LITTER BIN

LIGHT OAK & MAHOGANY WOOD

Minimal maintenance with large rubbish capacity

pittman[®]

OVERVIEW

The Seville Wooden Litter Bin offers a modern and practical solution for waste disposal, making it ideal for public spaces like towns, parks, and office car parks. It's also suitable for schools and other public buildings.

Made from durable Class IV French pine, this bin is built to last. You can choose between a light oak or mahogany finish to match local surroundings.

With a convenient aluminium handle, the lid easily opens for rubbish disposal and closes after use. The bin requires 100-litre bags (not included) for optimal use.

Designed for quick installation, the bin comes with fixings for easy bolting onto concrete, allowing for immediate use after delivery.

PRODUCT FEATURES

- Long-lasting - class IV pine wood made for outdoor use
- High rubbish capacity - 100 litre rubbish capacity reduces regular emptying
- Modern style - suited to public spaces, available in light oak or mahogany finish
- Easy use - integrated aluminium handle for easy opening and closing
- Fast installation - bolt-down into concrete; fixings included
